So why does REPUTATION LABEL support Mark Emmins ?  
Very simply this man is an example of the hard working musician out there today, who believes in their product and believes in themself..  
So many artists fall because they lose the faith in what they are doing, Mark is the exception..  
In the previous months we have been Promoting Mark and his great music, we have found that his enthusiasm and determination to carry on in these hard financial times was admirable.  
Also having such a great vocal talent and excellent skills with writing music, It shows that if you put your mind to something it will happen.  
Mark is always the first person to support other artists and this can be seen on a regular basis in our "Chat Box" on the main site at Reputation Label..In fact through out the site Marks encouragement and belief in other Artists on our site is extremely inspiring..!

HERE ARE JUST SOME OF THE REVIEWS FROM THE PUBLIC SO FAR ABOUT THE ALBUM .

For new people to Mark Emmin' s work & to those already aware of him, his last release 'Shake Your Moobies' , though admittedly a tongue in cheek fun summer song, probably would have given a false image of his music or his new direction. Never fear the Rocker is back with his new album 'WIRED & INSPIRED' , a return to form, no scratch that, he has taken his music to a new level that will please and excite his existing and new fans alike.

12 tracks that move from best kind of classic rock, through tracks pushing new boundaries, to his forte, good move your hips rock n roll. 'NEW AGE' , 'ZERO FAITH' & 'THE LOWDOWN' for me the standout tracks but I am not fooling you when I say each track matches their quality. You want good music that is honest, from the heart and reflects the artist and his thoughts on life then I urge you to check out this album. Released from June 28th on [www.reputationlabel.com](http://www.reputationlabel.com) , whether already a fan or new to Mark' s work you will not be disappointed...so sayeth -The Blue Clown Ringmaster 27thJune 2010
